

Year 3 topic work week 2

Art

Choose your favourite hand art picture after watching the video below. Who can come up with the best piece of artwork? Don't worry if you don't have colouring pens/pencils at home, can you use our shading techniques we have used at school to create a different effect? Could you do one colour and one black and white drawing? We'd love you to email your fantastic pieces so we can show them on our Facebook page.

My favourite is the gorilla! Myself and Miss Wilkinson will have a go too!

Geography

Find the cities daily game:

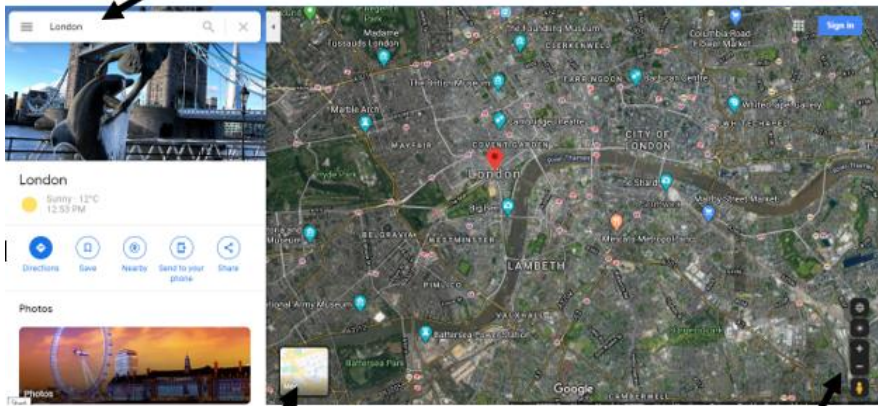

<https://online.seterra.com/en/vgp/3104>

Can you beat your score and time?

Use 'Google Maps' to find the following cities:

London, Glasgow, Newcastle and Durham (and any others you like!)

Write the city here

Make sure this is 'satellite'

Zoom here

The image shows a screenshot of the Google Maps interface for London. On the left, there is a search bar with 'London' entered, a weather widget showing 'Sunny 12°C 12:53 PM', and a 'Photos' section. On the right, a satellite map of London is displayed. Three black arrows point from text boxes to specific map features: one points to the search bar, another points to the satellite view icon in the bottom right corner of the map, and a third points to a zoom-in button in the bottom right corner of the map.

Use your knowledge of map symbols to find out what is in each city. Write down or draw the map symbols to show what is in each city.

Google: 'OS Map Symbols' if you cannot remember what they mean.

Art

Think of your favourite animal. We had a go at some fun cartoon drawings with our previous art task. Can you now create a real-life animal drawing? Use kidrex to find some amazing pictures and try to recreate them using our observational drawing techniques.

To make it easier you could split your page into squares so that you can focus on smaller parts of the picture!

We have attached some of our favourite animal pictures. What can you come up with?

Geography

Design your own city map!

Use map symbols to show what is in your city.

You can have anything you like!

Design a poster to thank the NHS service and email your work in.
